

BEAUTIFUL INFORMATION

CREATING PERFORMANCE DASHBOARDS FOR THE NHS

Project URL: <http://beautifulinformation.org/>

Project Twitter: [@ekbeautifulinfo](https://twitter.com/ekbeautifulinfo)

- Health

Beautiful Information is the first NHS/private partnership of its kind. It provides unique real-time information to NHS trusts to help them plan and resource clinical services to meet hourly fluctuations in patient demand. It is supported by East Kent Hospitals NHSFT, Ashford St Peter's NHSFT and Kent Surrey Sussex Academic Health Science Network, and originated in the Information Directorate at EKHUFT.

Beautiful Information uses information tools to create performance dashboards that give hospital managers and clinical staff a real-time view of activity within their trust.
