

GOBOOKS

ENABLING STUDENTS TO LEARN MORE WITH RENTABLE TEXTBOOKS

Project URL: gobooks.com.br

- Education

GoBooks provides Brazil's first textbook rental service. They enable students to save money by renting school books online. If the students like the book, they can pay the difference to keep it.

It offers an attractive alternative to paying for full-price new books to university and college students, while curbing the illegal practice of photocopying books. This is in a college market expected to grow by 10 million in the next 10 years.
