- Economic Empowerment
- Education
- Social Software
- Internet
- Audiovisual

i.am.angel is musician will.i.am's philanthropic foundation: it seeks to transform lives through education, inspiration and opportunity. The foundation has programmes dedicated to college scholarships, financial literacy and help with home ownership. It also has a particularly profound commitment to expanding STEAM (science, technology, engineering, arts and maths) programmes, and opportunities, to underserved communities, to encourage diversity, creativity and entrepreneurship. i.am.angel has donated \$780,000 to the Prince's Trust to fund a technology program. This donation will help young leaders to build skills that are vital in the future jobs market, including technology and computer knowledge.
