

KANSAN MUISTI

COMPARING FINLAND'S PARLIAMENT MEMBERS' CAMPAIGN STATEMENTS WITH THEIR VOTING RECORDS.

Project URL: kansanmuisti.fi

- Data
- Internet
- Social Software

Kansan muisti, still in beta, is a website that allows users to compare campaign statements with the actual voting records of members of Finland's parliament, so voters can test and uphold their representatives' honesty. In later iterations, the site will enable users to themselves vote on legislation, so they can compare their views to the ones expressed in Parliament. It will also publish simple information on campaign funding.
