- Social Software

This blog records the debates, actions and events happening at the UK House of Lords, offering insight, commentary and debate for anyone interested in UK politics.

Launched in early 2008, Lords of the Blog is the place for peers from across the political spectrum to talk about life and work in the House of Lords. The blog has a number of regular contributors, as well as guest appearances. Members of the Lords tend to focus blog posts on their specialist areas.
