Lumo Lift is a posture-correcting device that clips under your collar and gently vibrates when it senses slouching. Suitable for everyday wear, the discreet sensor syncs with a smartphone to track hours of good posture, steps and calories. Since launching Lumo Lift, Lumo Bodytech has accumulated a large 'posture database', helping slouchers all over the world to take steps to improve their posture, whether at work or at home. Lumo Lift has received over 1,000 five star reviews on Amazon.
